

POSTER LIST

Numbering of posters presented on the Canine Science Forum 2010

Nr.	Title	First author	
		Second name	First name
P-001	Social play behaviour of group-housed domestic dogs (<i>Canis familiaris</i>)	Adler	Carina
P-002	Leash walking as a model for cooperation between humans and wolves: the effects of personality and intensity of contact	Auer	Margit
P-003	Decoding man's best friend: A behavioral genetic analysis of hunting behavior in pointing breeds of dogs, <i>Canis familiaris</i>	Chowdhury	Budhaditya
P-004	"Do I know you?" Does Partner Familiarity Influence Social Interactions Among Dogs in a Park Setting?	Dutton	Elysia E.
P-005	Social support from humans in hand-raised wolf (<i>Canis lupus</i>) and dog pups (<i>Canis familiaris</i>)	Hann	Katrin
P-006	Social Play in captive timber wolves (<i>Canis lupus occidentalis</i>): possible functions and links to social relationship	Heufelder	Stefanie
P-007	Behavior as Story	Morstad	Jill
P-008	Whisperers and priesthoods: an evolutionary perspective	Nelson	Catherine
P-009	Working Dogs and Wolf Conservation: Livestock Guarding Dogs in Finnish and Estonian Context	Otstavel	Teet
P-010	Assessment of owners' and non-owners' skills in interpreting intra-specific communication in dogs	Papi	Francesca
P-011	Ecological and behavioral polymorphism of a stray-dog population as a result of the peculiarity of Moscow as a habitat for stray-dogs	Poyarkov	Andrey
P-012	Social interactions and non-invasive stress monitoring in captive timber wolves (<i>Canis lupus</i>)	Vasconcellos	Angélica
P-013	Livestock protection dogs in the 21st century: Is an ancient tool relevant to modern conservation challenges?	VerCauteren	Kurt
P-014	Influence of different keeping and training factors in dogs on their behaviour in a standardized behaviour test	von Gaertner	Amelie
P-015	"Stop that!": People interrupting dog behaviour in a dog park setting	Walsh	Carolyn J.
P-016	Balance of activity in wolf pups during first 6 months of their postnatal ontogeny	Yachmennikova	Anna
P-017	New approach to the study of social behaviour and activity in wolf ontogeny	Yachmennikova	Anna
P-018	Understanding of means-end relations in dogs	Hentrup	Marleen
P-019	Individual variability in response to human facial expressions among dogs	Hori	Yusuke
P-020	Relevance of Biochemical and Haematological Blood Screening in Preoperative Examination in Geriatric Dogs	Jebavy	Lukás
P-021	Does the A-not-B error in dogs indicate sensitivity to human communication?	Kis	Anna
P-022	Asymmetrical Paw Preference and Personality	Lee	Sean
P-023	Do dogs (<i>Canis familiaris</i>) recognize their own body size?	Maeda	Tomomi
P-024	Understanding of size constancy in dogs: A new approach to account for novelty effects	Müller	Corsin
P-025	Dogs can discriminate human facial expressions by visual cues	Nagasawa	Miho
P-026	Spontaneous blink rates of domestic dogs: A preliminary report	Nakajima	Sadahiko
P-027	Are dogs able to understand and copy actions rationally?	Nitzschner	Marie
P-028	Breed and age differences in a problem solving task	Passalacqua	Chiara
P-029	Happy tail wagging: a laboratory artefact? Lateral tail wagging in the field	Paz	Benigno
P-030	Dogs can't be deceived by virtual reality! Object permanence tasks on the touch-screen	Péter	András
P-031	Habituation and dishabituation during object orientated play in kennel-housed dogs: Consequences for environmental enrichment	Pullen	Anne
P-032	Relevance of ECG in Preoperative Examination of Older Dogs.	Richterova	Adela
P-033	Lateralisation and temperament tests can predict guide dog success	Tomkins	Lisa

P-034	The curious case of canine cataract: New insights into aging in dogs	Urfer	Silvan
P-035	Use of dogs to identify individual odor fall-out of humans	Vokálek	Václav
P-036	Operant conditioning parameters in cancer detecting dogs	Walczak	Marta
P-037	Effects of gender on performance in human-dog dyads in an agility parcours	Aliabadi	Ifa
P-038	Towards an early prediction of guide dog qualification	Arata	Sayaka
P-039	Microsatellite analysis of X and Y gonosome variability in the breeds Czechoslovakian and Saarloos Wolfdog	Cilova	Daniela
P-040	Is there a correlation between conservation genetic status and health status in dog breeds?	Jansson	Mija
P-041	Regional occurrence, high frequency, but low diversity of mitochondrial DNA haplogroup d1 suggests a recent dog-wolf hybridization in Scandinavia	Klütsch	
P-042	Association between Gene Polymorphisms and Behavioral Phenotypes in Japanese Akita Dog	Konno	Akitsugu
P-043	Screening of the Genetical Eye Diseases in Dog Breeds Used for Assistance training	Kopacova	Hana
P-044	In the dog, <i>Canis familiaris</i> , are individual characteristics displayed at 8 weeks of age, in the presence of the mother, found again at 12 weeks old with the owner?	May	Florence
P-045	Reliability and validity of the Behavioural Assessment for Rehoming K9s (B.A.R.K.) Protocol	Mornement	Kate
P-046	MHC data reveal high variation in Asian dogs and large founding wolf population	Niskanen	Alina
P-047	How predictive are early puppy temperament tests?	Riemer	Stefanie
P-048	Relationships between polymorphisms in canine neurotransmitter receptor genes and herding behavior in the sheepdog	Sato	Itaru
P-049	Does Trumler's Bionotus Test Predict Future Development of Pups? A Study on a Litter of Greenland Dog Pups up to the Age of Ten Weeks	Schiffer	Victoria
P-050	History and today of the Czechoslovakian Wolfdog breed – measurement of body constitution	Šebková	Nadezda
P-051	Owner-reported breed-typical behaviour and breed-group differences in the German pet dog population	Turcsán	Borbála
P-052	Personality matching in owner-dog dyads	Turcsán	Borbála
P-053	Social behavioural profile of different dog breeds	Valsecchi	Paola
P-054	Polymorphisms of selected genes controlling the growth of the skeleton in Dachshunds	Vasek	Jakub
P-055	Genetic analysis of the Bearded Collie breed: A causal mutation of coat colour genes and the dopamine receptor gene DRD4	Vejl	Pavel
P-056	Dog social attraction to human partners: A pilot study	Wedl	Manuela
P-057	AVA shelter, a new place for research on behaviour and welfare of domestic animals.	BELKHIR	Séverine
P-058	Taking a shelter dog for walks as an important consideration in the resocialization process	Braun	Gudrun
P-059	Dietary Parallels in the co-evolution of dog and man	Brown	Wendy
P-060	Dog-assisted therapy in prison: Emotional competences and emotional status of drug-addicted criminal offenders	Burger	Eva
P-061	The effect of enrichment on the welfare and performance of kennelled working dogs.	Cobb	Mia
P-062	Stereotypical behaviour; causes, principles and remedies in the domestic dog	Dvorackova	Katerina
P-063	Are dogs stimulant? Looking for effective sensory inputs for children with intellectual and multiple disabilities	Lima	Mariely
P-064	Dog welfare for pro-social skills conveyance to prison population	Linaza	Iñaki
P-065	Considering the dog as part of the system: studying the attachment bond of dogs toward all members of the fostering family.	Mariti	Chiara
P-066	Puppies' appeal on people: a comparison with small adult dogs.	Mariti	Chiara
P-067	Reading Education Assistance Dog (READ) at primary school	Olsen	Christine
P-068	The dogs' behaviour in AAT with stroke patients - a pilot project at Sunnaas University Hospital	Olsen	Christine
P-069	Development of a standardized behaviour test to evaluate the influence of dog-owner relationship and dog-owner attachment on the behaviour of the dog - assessment of inter-rater reliability	Ott	Stefanie
P-070	Dogs and owners in a busy city street	PARI-PERRIN	Elodie
P-071	Does the breed influence dog's attachment to man? A preliminary study.	Ricci	Eva

P-072	Village dogs at the Pacific Coast of Mexico: Socialization towards humans and human-dog interactions	Ruiz-Izaguirre	Eliza
P-073	Examining the relationship between domestic dog behavior and human attachment - differences between pure and mixed breed dogs	Thorn	Judith
P-074	Enhancing empathy with mentally disordered offenders through dog-assisted therapy - a pilot study	Turner	Karoline
P-075	Approach on strategic planning for controlling the stray-dog population in Moscow based on quantification and ecological researches	Vereshchagin	Alexey
P-076	The quantification of the Moscow city stray-dogs in 1996 and 2006 and their population characteristics	Vereshchagin	Alexey
P-077	Expert Interpretations of Emotion in Recorded Dog Behavior	Wan	Michele
P-078	Differences between an "ideal detection dog" and dogs used by the police	Adamkiewicz	Ewa
P-079	The prevalence of neutering pet dogs (Canis familiaris) across countries of the Western World	Berthoud	Daisy
P-080	Prevalence of undesired behaviours in domestic dogs	Blackwell	Emily
P-081	Dog regulations in East-Flanders - a Belgian province	Colman	Isabelle
P-082	Monitoring of dog bites toward people in an urban environment: an example of an integrated approach	Gazzano	Angelo
P-083	Excessive mouthing in puppies as a predictor of aggressiveness in adult dogs	Godbout	Martin
P-084	Dog Aggression: Canine Behaviour and Factors Contributing to Aggression towards Humans	Kottferová	Jana
P-085	Atypical face-scan patterns in children misinterpreting dogs' facial expressions - evidence from eye-tracking	Meints	Kerstin
P-086	Children and dogs: How the "Blue Dog" can help to prevent dog bite injuries	Meints	Kerstin
P-087	Survey of undesirable behaviours in German Shepherd Dogs	Mengoli	Manuel
P-088	The developmental characteristics of neuroendocrine response to stress in dogs	Mogi	Kazutaka
P-089	Phenotypic determination of noise reactivity in **3 breeds of **working dogs: roles for age, breed and careful assessment	Overall	Karen
P-090	Stress levels in dogs when being trained in a wild boar enclosure	Schalke	Esther
P-091	Evaluation of testing for aggression in dogs	van der Borg	Joanne
P-092	SPECT imaging of the Dopamine Transporter in dogs with compulsive behaviour	Vermeire	Simon
P-093	Survey of children-family dogs relationship by using a questionnaire for parents: a preliminary study.	Zilocchi	Marcella
P-094	Latency of reaction to human gestures in pet dogs with different age: who is faster?	Dalla Costa	Emanuela
P-095	Dogs use their own location as a local enhancement functionally referential cue	Gaunet	Florence
P-096	Do dogs (Canis familiaris) understand the perception of humans?	Heberlein	Marianne
P-097	Can dogs (Canis familiaris) use a mirror to solve a problem?	Howell	Tiffani
P-098	Dogs' comprehension of pointing signals presented by a robot	Lakatos	Gabriella
P-099	Dogs Choose a Human Informant: Metacognition in Canines	McMahon	Shannon
P-100	A direct comparison of human-gazing behaviour when confronted with an unsolvable task, in adult dogs and human infants	Prato-Previde	Emanuela
P-101	Dog sensitivity to canine and human emotional facial expressions - a study of their eye movements.	Racca	Anaïs
P-102	"Go there" or "It's there"? Dogs' understanding of the human pointing gesture	Scheider	Linda
P-103	Empathic dogs: the domestication of emotional contagion	Silva	Karine
P-104	Are you looking at me? Dogs' responsiveness to human gaze	Silva	Karine
P-105	Dogs do look at images! Eye tracking in canine cognition research	Somppi	Sanni
P-106	A comparative study of dogs' responsiveness to a human pointing gesture in Japan and Germany	Takaoka	Akiko
P-107	Personality influences performance in a human-cued object choice task	Templeton	Jennifer
P-108	Can we employ eye-tracker for studying dogs' communicative skills? A gaze-following experiment.	Topál	József
P-109	Do dogs have a Theory of Mind?	Trojan	Maciej
P-110	Reversal learning in a social communication task; is there an effect of cue?	Wallis	Lisa
P-111	A pilot study on the effectiveness of problem solving games in reducing timorousness in dogs.	Zilocchi	Marcella
